community-based essential functions

Interpreting in Person

The schedule of vaccination above is listed with in person work in mind. Please review the schedule and use it to determine where most of your work takes place and where you are willing and capable of working in person. Once you determine your eligibility please seek vaccination from your primary care provider, the organization you contract with, or your county health services.

The examples listed are just some of the areas where interpreters work and is not meant to be an exhaustive list of all settings interpreters provide

accessibility. If you are unsure how to determine where you fit on this schedule you can call the COVID Call Center.

Following COVID vaccination, it is still critical to follow all safety guidelines, such as masking, social distancing, and hand hygiene.
